## As To Fog Lights

Authorities of Rockland have agreed that for dim-out purposes parking lights alone on automobiles will be acceptable within the city limits, provided the speed is kept at 10 miles per hour. It must be borne in mind that on all highways outside the city limits where dim-out rules are in force, one or two auxiliary lights, properly screened, plus parking lights, or headlights properly screened, are required by law.

Pirates Tackle Strong Con-  
tenders At Community  
Park Sunday and Labor  
Day

A strong Sunday afternoon attraction at Community Park will be furnished by the game between the Rockland Pirates and Camden Shipyard team. The Pirates were the champions of the Knox County League again this season, while the Shipyard team represents the cream of Camden's diamond artists, and has been mopping up everything this season. The game will start at 2.30, and will be well worth the fans' attention.

The Labor Day game also at Community Park should be another big attraction for the Pirates as they are going to pit their strength against a team of Camden and Thomaston All-Stars. "Play ball" will sound at 2.30.

## [EDITORIAL]

SEWALL'S  
FINE  
RECORD

To the charge that Maine needs a business man for Governor—and this has a sort of familiar ring at campaign time—Gov. Sewall points to the financial statement showing Maine to be a million dollars better off than it was a year ago this time. As to "efficiency" he points to the retirement of \$325,000 of State bonds before due with a saving of \$45,000 in future interest charges; the placing of all State purchases on a competitive bid basis as far as practicable; the broadening and strengthening of Civil Service for State employees; the limitation and clarification of the powers of the Executive Council; better handling of auto registrations and operators' licenses; a two-way system for State Police.

Aside from the dollars and cents angle there is the human side which has been given special stress under Gov. Sewall's first administration. Old Age Assistance has been placed on a permanent and sound current revenue basis, with 2500 new cases added and provision made for anticipated needs. Also may be mentioned an increase of \$100,000 per year for the school equalization fund, an equal amount added for hospital aid, and \$80,000 added to appropriations for aid to dependent children, the blind, and for support of State wards.

And there's still another angle in which every resident of Maine is, or should be, concerned and that is war-time emergency legislation. The State of Maine has shown its forwardness in co-operating with the Federal government on a 20 million dollar airport construction program; by having a survey of idle industrial plants ready for use when the defense boom started; by priority information clinics; by the aggressive organization of the Maine State Guard and Civilian Defense; and by the establishment of the Maine Maritime Academy.

Benefits to farmers are shown by the increase in research on potato disease and by the adoption of a program aimed at eradication of Bangs' disease. Labor was strengthened by the last Legislature which gave full collective bargaining rights. Unemployment compensation benefits were increased by 20 percent, and the waiting time cut in half. Business was aided in obtaining war contracts and by the distribution of the first complete directory of Maine's manufactured products.

Approval of President Roosevelt's policies which reached 72 percent last November before the Pearl Harbor disaster, jumped sharply to 84 percent the following January, and then subsided for the next three months to 78 percent. The latest poll taken by the American Institute of Public Opinion, furnishes what may be a surprise to many readers for it shows Roosevelt endorsement at its lowest point—70 percent approving, 16 percent disapproving and 14 percent maintaining a non-committal attitude.

THE  
DESERT  
FLAMES

The long-expected battle has burst again across the level and pitiless reaches of the Libyan Desert; no one can mistake the deadly seriousness of the issue that has been joined, but at the end of the second day there is little to show how it may be going. This time Rommel certainly failed to achieve surprise; he is fighting on a narrow front, limiting his powers of maneuver, and with air superiority against him. But few will risk prediction on that desert battlefield, where there have been so many tragically unexpected turns, and the struggle may sway back and forth for days before the decision becomes apparent.

There is little doubt that this will be a fight to a finish. If Rommel can force his way over only some 70 miles of desert, Alexandria, the Mediterranean, perhaps the whole Near East will be in his grasp. If the British can stop and fling him back, the high hopes that have so often ridden on the banners of their desert army will flame again to beckon them on. The whole course of the war may still turn on these few square miles of empty sand and rock, and this time our own men, in the air and on the ground, are fighting side by side with the British and our other allies. As the air is split with the shriek and thunder of the bombs, as the ground shakes to the clash of the iron cavalry, as the night is redened with burning tanks and leaping gun flashes and as the smoke and dust of devastation drift across the scene one can only send one's hopes and wishes to the men once more standing in the breach for civilization.—Herald Tribune.

## CITY SCHOOLS OPEN TUESDAY

## Important New Course Established At the High School—The Teacher List

Rockland schools will open Tuesday. Because of new families coming to the city, Supt. Alden W. Allen expects that the enrollment, especially in the grades, will be a little higher than last year. Principal Joseph E. Blaisdell says that advance registration indicates about the same number of students at the High School as last year. Supt. Allen stated that repairs and improvements to school buildings included a new heating boiler at the Purchase Street School; painting, both inside and outside, at the Grace Street School; a new woodshed and toilet at the Benner Hill School; repairs to the roof at the High School, and a new roadway, some new slate on the roof and the pointing up of chimneys at the McLain building.

All the buildings have been thoroughly cleaned and renovated. At the High School this year a new course of instruction in machine shop practice, open to Seniors and Juniors, will be inaugurated. Some of the machines have already been set up in one of the rooms in the basement, formerly used for mechanical drawing. A tool room has been built in a corner of the room.

Students of this course will have three hours of instruction in the shop every day. Up to the present time 12 have registered for the course. The machine shop practice course will include classes in related science, related mathematics and mechanical drawing. The teacher for this course has not as yet been elected.

Because of the establishment of this course it has been necessary to discontinue the schedule of five 55-minute periods each day and revert to the former schedule of seven 45-minute periods each day.

The mechanical drawing course equipment has been moved to the basement room adjacent to the school lunch kitchen. New equipment in the kitchen includes a new electric range, making three in all, and Principal Blaisdell expects to have an extra sink installed shortly.

The list of teachers, with the exception of those for the machine shop practice and mathematics in Junior High School, is as follows:

## Town Co-operation

Being Urged With View To  
Obtaining Fire Equip-  
ment Assistance

A meeting, attended by 17 representatives, four from Friendship, two from Camden, two from Rockport, two from Owl's Head, one from Thomaston, two from Union and four from Rockland, was held in the city council room Wednesday, for the purpose of making arrangements for fire equipment assistance between all the towns in the county.

A committee, to be assisted in an advisory capacity by Jerome C. Burrows, city solicitor, consisting of Fire Chiefs Van E. Russell, Rockland; Allen F. Payson, Camden; Edwin Anderson, Thomaston; Raymond E. Thurston, Union, Melvin Lewry, Friendship, were appointed to make the necessary arrangements, which would include scale of rates for use of equipment.

Rockland, Thomaston and Camden have had a reciprocal equipment use a number of years. Several phases of the set-up were discussed. Another meeting will be held as soon as preliminary plans have been formulated by the committee.

## The Black Cat

(By The Roving Reporter)

Among the articles which the late Mrs. Grew, mother of our Ambassador, who recently returned from Japan, received as an inheritance was a bureau, and she was told that everything it contained would positively become her property. Among the articles revealed was a chain which excited her admiration and she took it to a jeweler to have certain alterations made. The jeweler appeared somewhat surprised and went into his shop for a closer examination. When he returned it was with an offer of purchase. Mrs. Grew couldn't think of parting with the chain—but she did, for the "pretty stones" were diamonds, and she received \$5000 for the "trinket." This story is told to me by a Rockland woman, who says it was given to her on the very best authority.

Diphtheria was responsible for 1457 deaths last year, according to the Census Bureau. Yet they say it is a "completely preventable disease." Scurvy, the malnutrition disease once dreaded by explorers and seamen, caused only 26 deaths in the United States in 1940.

A fife used in the War of 1812 is on exhibition in the window of Crie's Gift Shop. It was presented to Mr. Crie by the late Fred S. Sweetland, whose father, Joseph Sweetland, tooted it in that early disturbance.

The hotel clerk who ate a dozen yeast rolls, an abnormal quantity of baked beans and the usual affiliated viands, didn't feel so well yesterday.

Phraps the fact that he ate boiled salad dressing on the rolls may have had something to do with it.

A watch which has ticked in the pockets of many owners is now the property of Edwin H. Crie, one of The Brook's well known merchants. The timepiece was bought in Liverpool by Capt. David Crockett of Ash Point, for Walter Edmonds of Rockland, who later became a resident of Burnham. The cost was \$40. Edmonds sold the watch to Jeremiah Tolman, Tolman sold it to Capt. Wellman, Wellman sold it to Isaac Tolman of Matinicus, and in 1820 Isaac sold it to his son Hanson for \$18. Seventy-two years later Hanson Tolman sold the watch to Mr. Crie's father, the late R. Fred Crie, for one barrel of flour. What Edwin Crie will do with it remains to be seen.

Have you ever noticed how much faster a person walks when wheeling a baby carriage, although the baby probably has no particular place to go. And have you ever noticed how some women, pushing one of these receptacles is quite positive she has the right of way, even though she may be on the wrong side of the sidewalk?

The season of spiritual uplift which has marked the advent of Rev. Ernest O. Kenyon as its rector finds further re-action in the painting of St. John's Church. This Episcopal house of worship has an architecturally attractive atmosphere to which the new coat of paint adds wonderfully.

## Assistant Pastor

Rev. Archie Gillis Has En-  
tered His Duties At St.  
Bernard's Church

Rev. Archie D. Gillis assistant to Rev. James F. Savage, pastor of St. Bernard's Catholic Church, came here recently from St. Theresa's Parish, South Brewer. He succeeded Rev. John A. Cummings, who was transferred to South Brewer.

Father Gillis attended St. Mary's Parochial school and the public schools of Bath, Maine, and high school and St. Dunstan's College at Charlottetown, Prince Edward Island. He took his theological course at Grand Seminary, Montreal.

He was ordained in May 1931 for the Diocese of Portland by the Most Rev. John Gregory Murray, Bishop of Portland, who is now Archbishop of St. Paul, Minn. Father Gillis served as assistant in several places in Maine before going to South Brewer.

## MATERIALS AT HAND

Materials and instructions for the first Red Cross Army Surgical Dressing quota are now on hand.

The Work Room in the Community Building will be open Tuesday night, Sept. 8, from 7 to 9, and Wednesday afternoon, Sept. 9, from 2 to 6. All workers are asked to be present. Because of the slowness of the arrival of shipments in Rockland, the work is more than two months behind.

Mrs. E. K. Leighton wishes to take this opportunity to thank Mrs. Elsie Munsey, the new chairman, and Mrs. Helen Lamb, the Assistant, for diligent and efficient work during the period of organization.

### Book Review

(By K. S. F.)

**The Drums of Morning.** Author: Philip Van Doren Stern. Publishers: Doubleday, Doran and Company, Inc., New York.

This novel of anti-slavery times is a thriller from start to finish with its literary tale of events that clustered about, and dominated the American of the North in his ideals and work against the evils of slavery. There is a great amount of creative energy and true historical accuracy in these accounts given through this intense romance, which is brilliantly woven into the very fabric of the times.

There is much more than pure romantic fiction in this novel. It is alive with its sweep of historical events that rushed the months of sadness in the life of slavery and undisturbed times by the tumult and bondage.

We find much to surprise us in the authentic material that has been found by diligent research, that opens the mind to reasons justifying, fully many of the lines of progress that were in need of being torn asunder. Some of these lines we are still fighting.

In this high romance where the drums rolled out the slave traffic of 1865 they roll again in this day in battle for man's freedom. This time for all of civilization.

K. S. F.

## NO DELAY AT OWL'S HEAD

Civilian Defense Machine Ready to Go In All Departments At Moment's Notice

Owl's Head Set-up Report Center is located at the home of the 1st Selectman and Town Co-ordinator, Eino J. Anderson. It is manned by him and volunteers. Town Co-ordinator, Eino J. Anderson, Chairman of Police, David Mann, Chief Air Raid Warden, Alfred Fredette; Fire Chief, J. Dana Knowlton; Chairman of Evacuation, Edna Ross Trembley; Chairman of Disaster, Edna Ross Trembley; Chairman of Women's Division, Belle Roberts; Chairman of Civilian Defense, Margaret Margeson for Owl's Head and Mrs. Theodora Foster at Ash Point; Volunteer Placement Bureau, Men, Eino J. Anderson; Women, E. Sybil Anderson; Chairman of Women's Division, Belle Roberts; Messengers, Frank Ross, Jr., Harold Payson, Robert Margeson, Robert Coffey, Andrew Coffey and Frank Salo.

The Town of Owl's Head has advanced a long way in its Civilian Defense work. The people have taken advantage of the many courses offered such as First Aid, Motor Corps, Nurses' Aid, Warden and Police, Fireman courses, and Canteen. Many had to go to Rockland for these courses which meant many hours of hard study. The Town has installed five air raid sirens at advantageous points in the town. Special mention should be made of Earl C. Perry who has so generously given of his time and effort in installing and operating a siren at Holiday Beach. Belle Roberts was appointed Town Chairman of Women's Division for the Town of Owl's Head on Jan. 6, 1942, by the Governor of the State of Maine. Her duties consisted of recruiting men and women for civilian defense service; serving public departments, Red Cross, American Legion, and other organizations as a clearing house. Reports have been made to the County Defense Council and County Chairman of Women's Division, Mrs. Horatio Cowan. Fifty-seven women in the town have signed the Volunteer Registration Blanks given out under the direction of Women's Division; also 27 men have signed this making a total of 84 persons out of a small town doing what they can towards Civilian Defense. Many of the residents of this town have sent material to the canning center in Rockland.

The Disaster Committee in Owl's Head with Edna Ross Trembley as chairman is made up of the following groups:

Evacuation Committee, First Aid Groups, Motor Corps, Nurses' Aids, Home Nurses, and Canteen.

Deputies, Alfred Fredette, Edmund Wotton and Helen Ross. Air raid Warden will assist in evacuation of civilians in the event of an emergency inasmuch as they are familiar with the families in their districts. Evacuation Centers are at Timber Hill School, Ash Point School, Ingraham Hill School and the Town Hall. Should an evacuation order come from the Army, everyone should report to the nearest center. Transportation, if necessary, will be provided by the Motor Corps.

**Motor Corps**  
Driver, Nellie Reed.  
First Aider, Constance MacPhail, Florence Nelson.

The Motor Corps group has been doing practice work in Rockland because it lacks the fourth member necessary to function as a complete unit. A volunteer, Julia, the course and work with this group is badly needed.

A panel truck belonging to Peter K. Reed of Owl's Head has been loaned as an emergency ambulance. It is equipped with stretchers, blankets, splints, and First Aid Kit. Other trucks and beach wagons which are available in the time of an emergency are owned by Grace Faunce and Albert Crowley.

### Corp. R. L. Skinner

Rockland Soldier, Drowned At Portland, Buried Here With Military Honors

The late Corporal Ralph L. Skinner. Military services for Corp. Ralph L. Skinner, 20, who lost his life by drowning when swept from a rock at Portland Head Saturday morning by a heavy wave, were held in Burpee Funeral Home Thursday afternoon.

The service was conducted by Major William Dawes Veazie of Fort Williams, chaplain. He was accompanied by Lieut. Leighton W. Dudley and Sergeants Thomas E. Baker and Lyman Crocker and a firing squad of nine men, two buglers and six bearers all from Fort Williams. The flag draped casket was backed by a profusion of floral offerings, and there was a large attendance.

Corp. Skinner, who was born in Sidney, has lived in this vicinity about 12 years. He was a member of Battery F, 240th C.A.C., remaining with the organization about two years. Following this he was at a C.C.C. camp in Bridgton for six months.

He was employed in 1938 and 1939 at the factory of the Paragon Button Corporation, Waldoboro.

He rejoined the battery in April 1939 and went to Portland with the outfit in September, 1940. He has been stationed at Fort McKinney, Fort Lyons and was a member of Battery H, the Headquarters Battery at Fort Williams, where he met his death.

Corp. Skinner is survived by his parents, Edward Eugene and Cecile Reed Skinner; a brother, Pvt. Arthur E. Skinner, who is stationed at Harding Field, Baton Rouge, La.; two sisters, Miss Dorothy Skinner and Miss Alice Skinner; his paternal grandmother, Mrs. Minnie Skinner of Augusta and maternal grandparents, Horace and Cora Gross Reed of Waldoboro.

Letters of sympathy were received Monday by Mr. and Mrs. Skinner from Capt. Arthur A. Robinson, captain in command of the 240th C.A.C., and Major William Dawes Veazie, chaplain of the Portland Subsector and Portland Harbor Defense.

The body of Corp. Skinner was recovered Monday afternoon and brought to Rockland Wednesday. A notice received by Mrs. Skinner Thursday gave a list of competitive ratings for the month of August showing that Mr. Skinner was rated as best corporal of Battery H, Headquarters.

Jackson and Everett Blithen who gave us first hand information on air raid bombings, lessons on gasses, motion pictures, which were of great benefit to the people. Winfield Maddocks and Peter K. Reed, members of the Sheriff's department, have assisted in every way possible in the defense program.

Mrs. Harry Smith assisted by Mrs. Dorothy Sawyer, Mrs. Belle Roberts, Mrs. Evelyn Ross, Mrs. Helen Garnett and Mrs. Minnie Hamor visited every family in the town in the interest of war bonds and stamps and through their efforts a great many are being bought each week.

Many boys have gone from this little village to do their bit for Uncle Sam—many of them having enlisted. A number of these young men have shown outstanding ability in the armed forces.

The Civilian Defense Officials are grateful to John Pomeroy, County Co-ordinator; Henry P. Weaver, Chief of the State Highway Police; Lieutenant-Commander Merrill of the Rockland Naval Base; Capt. Albert Brown, Whitehead Coast Guard; Earle Ludwick of the Sheriff's Department for their cooperation as they have been of great service to this town and it is deeply appreciated.

### A Harvest Show

Victory Gardens Will Be Stressed At Camden Opera House, Sept. 16

Plans are well underway for the Victory Garden Harvest Show which will be held in the Camden Opera House, Sept. 16, under the auspices of the Rockland and Camden Garden Clubs. Victory Garden Harvest Shows were endorsed by the National Council of State Garden Clubs in annual meeting at Philadelphia, May 11 and 12.

All patriotic and horticultural groups have been urged to stage a Victory Garden Harvest Show for the benefit of Army Emergency and Navy Relief, and during 1942, 20,000 communities in the United States are expected to participate in this movement.

The funds of both Army Emergency and Navy Relief will be used to meet the emergency needs of the families of the men of our armed forces; 85% of gate receipts after deduction of Federal tax will be turned over to the Army Emergency and Navy Relief Fund. All the funds will be used for the direct benefit of every community. Never before has horticulture and gardening been called upon to contribute to the national effort in quite this fashion. This will be more than a flower show for other individuals and organizations have been asked to participate in the movement.

There will be artistic arrangements of vegetables and fruits as well as flowers. Hooked rugs made by women of Knox County will be displayed, and an exhibit from the 4-H Club will be shown. The Knox County Camera Club will have an exhibition of pictures and show slides of flowers and gardens. The Red Cross canteen from Camden and Rockland will serve tea in the afternoon. A \$25 War Savings Bond will be given away.

Tickets are now on sale by Garden Club members at a very low price. Everyone is asked to get behind this movement and help make a large amount of money for the benefit of the families of our boys who are giving everything they have for the freedom of the world.

Honor Bill Romanoff the Club's Newest Daddy—Cigars, Gifts, Songs

The entertainment committee misused on the matter of a speaker for Wednesday's meeting and the time was given over to felicitations for the club's rookie Bill Romanoff, manager of Park Theatre who a few hours before had risen to the proud and happy distinction of becoming a daddy.

He swapped nice cigars for hearty congratulations and was then called to the speaker's place the head table where he was soon confronted by Lion Bob Gregory wheeling a baby carriage which was replete with appropriate gifts and equally appropriate rhymes.

There was lots of fun as the new papa undid the packages and read the rhymes, and he accepted both the gifts and the rally with the utmost good nature. Likewise the timely-titled songs which were sung. It was great day for Bill Romanoff, who reported mother and daughter doing well.

Frank Tirrell and Sam Savitt were named by General Chairman Frank H. Ingraham as members of the October entertainment committee.

## SUBLETT-DAVIS

Miss Helen Davis of Hartford, Conn., formerly of Port Clyde and Rockland, and Carl Sublett of Manchester, Conn., were married Aug. 29 at the Chichester Federated Church, Chichester, Mass., by Rev. Chester R. Cooper, brother-in-law of the bride. Mrs. Chester Cooper, the bride's sister was matron of honor, and Joseph Begley of Hartford was best man. White

pillows were arranged at the altar. The bride was given in marriage by her father, the double ring ceremony being used. The bride wore wine velvet with orchids, and the matron-of-honor wore powder blue with gardenias.

The bride is the daughter of Sydney H. Davis and the late Mary (Knight) Davis of Port Clyde. She graduated from Rockland High School in 1933, attended University of Maine two years, and graduated in 1938 from American International College, Springfield, Mass.

Mr. Sublett is the son of Mr. and Mrs. Tandy T. Sublett of Lackey, Kentucky. He attended Western State Teachers' College at Bowling Green, Kentucky, and Mayo Vocational School at Paintsville, Ky. He is employed by Pratt & Whitney Aircraft Company, Hartford.

Immediately after the wedding a reception was given at the home of Rev. and Mrs. Cooper, with 30 guests.

Mr. and Mrs. Sublett spent their honeymoon at Cape Cod, and are now at home at 210 Cheshire street, Hartford.

Attending the wedding and reception from this locality were Mr. and Mrs. Sydney H. Davis of Port Clyde and Miss Margaret Simmons of Rockland.

guests of Mr. and Mrs. Pearl Willey have returned to Trenton, N. J. Mrs. Gasper Chiari and daughter, Carmen, leave Saturday for Brooklyn, N. Y., after spending several weeks with Mr. and Mrs. Knute Gautsion.

## WITH THE EXTENSION AGENTS AND THE KNOX-LINCOLN FARM BUREAU

### Agricultural Notes

Plans are being made for the annual Farm Bureau membership drive which starts this month. This past year there were nearly 1,000 rural people who were members of this organization in Knox and Lincoln counties. They have kept informed of the latest developments in agriculture through a monthly circular and have had the help of the three Extension Service agents in planning their work and demonstrations.

Farmers in Knox and Lincoln are now being checked on practices carried out in connection with the 1942 agricultural conservation program. Lime is available for 1943 but has to be used on crop land, new seedlings, pastures and orchards. It can not be used on old hay fields as in the past. Super and 0-14-14 can be used only on new seedlings, pasture land, and orchards, also on alfalfa and ladino clover. There is no \$20 minimum limit as of last year. This will eliminate all farms of less than 10 acres with no livestock.

Merle Hilburn of the Experiment Station was in the district last week budding a demonstration plot of Virginia Crabs and Hibiscus apple trees at County Agent Wentworth's in Hope. The trees that were budded last year have shown exceptionally good growth. It has been found that Virginia Crabs budded this way will come into bearing much earlier. There may be a few of these Virginia Crabs available next year from the pool that was started a year ago.

Several poultrymen who have tried the new sulphur treatment for coccidiosis report very good results.

### With The Homes

Plans have been made for the Farm Bureau Membership Campaign to be started early in September. The county agent and home demonstration agent will meet the chairman or a committee appointed for that purpose in each town during September. Solicitors will be chosen for each town who will be responsible to the chairman. The campaign ends officially on the day of the annual Farm Bureau Meeting, Oct. 24. The total women's membership for 1942 was 619. The goal set for 1943 is 650. It is expected that through the neighborhood group organization there will be new members for the Farm Bureau.

Mrs. Anne Carver, foods project leader of the Vinland Farm Bureau look considerably responsible in making arrangements for the Canning demonstration which Lucinda Rich, the home demonstration agent held there in G.A.R. hall, Tuesday, Aug. 25.

Neighborhood leaders were notified of the demonstration, and they in turn told everyone in their vicinity. The neighborhood leaders are Mrs. Claudine Dyer, Mrs. Isabel Calderwood, Mrs. Frances Filchrest, Mrs. Elsie Calderwood, Mrs. Ellen Thomas, Mrs. Althea Bickford, Mrs. Ada Creed, Mrs. Doris Arrey and Mrs. Cora Peterson. The home demonstration agent canned green beans using the pressure cooker for processing. Tomatoes and pears were processed in the boiling water bath. Directions for canning with little sugar were given. Other literature on storing, dry salting, and drying as methods of preserving was distributed as well as time tables for canning fruits and vegetables.

The Orr's Corner Farm Bureau met Aug. 27 with Mrs. Hilda Boggs,

clothing project leader, in charge. She demonstrated certain practices in tailoring especially for coats and suits and also showed how to make buttonholes in woolen material. Several members practiced these steps under her supervision. The cheese which was made at the previous meeting in July was sampled and divided among those who had furnished milk for it. The next meeting is to be War-Time Buying with the home demonstration agent in charge.

Mrs. Helen Winchester, clothing project leader at Burketville, conducted the subject, "Christmas Gift Gadgets" at their recent meeting, Aug. 25. Twenty patterns were cut from the suggestions which were displayed from the gift of boxes.

### 4-H Club Notes

Jane Packard and Margaret Packard tended the booth.

Judges for the races were Anna Simpson, county club agent, Mrs. Bessie Hardy of Hope and Mrs. Parker, West Rockport. Clubs represented were the Singing Sewing and Amateur Farmers, West Rockport; Be Alert, South Hope; Hopes' Happy and Hill Top Juniors, Hope and several miscellaneous members from Camden.

The Orr's Corner Bean club met at the Community building, Aug. 26, to get their records up to date for the fair. Instruction on selecting exhibits was given by the club agent. Dates for meetings for the remainder of the year were set by their leader, Mrs. Bragg. Clubs are making plans for their local contests. Coming soon are West Rockport, Sept. 18; Burketville, Sept. 21; Warren, Sept. 22; Sheepscot, Sept. 23; Lowelltown, Sept. 24; Alfred Lake, East Union, and South Hope, Sept. 25. Knox County 4-H garden and canning members have been asked by the Victory Garden Harvest Show to be sponsored in Camden, Sept. 16 by the Camden and Rockland Garden Clubs at the Opera House.

## CHURCHES

### SERMONETTE

#### Time Files

It hardly seems possible that ten years have elapsed since the coming of the Most Rev. Joseph E. McCarthy, D. D. as Bishop of Portland.

His investiture into his high office was an event of colorful importance in Maine Catholic history. Great priests and lay Catholics welcomed him. His immediate predecessor, Archbishop Murray and a former predecessor, Cardinal William O'Connell, had important places in the age-old ceremonies.

These three Bishops have made Catholic history in the United States. The Cardinal is dean of the Catholic hierarchy in this country.

As administrator of the great diocese of Massachusetts had his advent been 50 years later, he would unquestionably been the first American to have become Pope. Portland became aware of his greatness nearly 40 years ago when Archbishop Murray was also beloved of citizens of Portland for his distinguished and lovable qualities, by men of all faiths; and so ten years ago Bishop McCarthy came here, following quietly in the footsteps of these priests of God. Just as the even flow of the incoming tide, he came without fuss. Like the still power of the tide at its flood, he has measured up. No wisest Bishop ever administered to the Catholics of Maine. He, too, has won a high place among Christians of other faiths. So many events have marked Catholic progress in the ten years it is difficult to pick the high spots, but undoubtedly the building of the great Mercy hospital on State Street will be the outstanding event of his administration.

All Christians who have come to know him, will add their felicitations. His sole purpose is to walk humbly with his God, in his great work.

William A. Holman

"Man" is the subject of the Lesson-Sermon that will be read in all churches of Christ, Scientist, on Sunday, September 6. The Golden Text is: "The steps of a good man are ordered by the Lord; and he delighteth in his way." (Psalms 37:23). The citations from the Bible include the following passages: "Behold, what manner of love the Father hath bestowed upon us, that we should be called the sons of God; therefore, whosoever loveth him that begot him, he knoweth him not." (1 John 3:1).

The Universalist Church will open for the first service of the season Sunday morning at 10:40. Returning from his vacation, Dr. Lowe will preach on the subject of "Unity and the Purpose It Serves." Soprano soloist, Miss Lotte McLaughlin.

### Owl's Head Mobilizes

#### And the Incidents Are Carried Out Most Successfully

Eino Anderson, town co-ordinator for Owl's Head, reports a successful mobilization test Wednesday last when the town's fire department, wardens, first aiders, Motor Corps, and Messengers were taken from their posts for duty in three to eight minutes after the siren first sounded.

Chairman of Disaster Committee, Eino Anderson, makes this report of incidents: Messenger Robert Margeson gave word of a casualty at Holiday Beach. A boy, escaping from a burning house, was overcome by smoke, was not breathing and had severe burns on his hands and forearms. Myra Bradbury and her first aid group administered artificial respiration until the victim revived, dressed the burned areas and treated for shock. The victim was carried by stretcher to a first aid station.

At the Town Hall an Air Raid Warden discovered a girl who was trapped under a small bridge. She was caught walking along the road in an air raid and took shelter under the bridge. The bridge was hit by a bomb and she was pinned down by a beam across her chest. First Aiders under the direction of Selma Anderson rescued the victim, treated for broken ribs and carried by stretcher to the first aid station.
